Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Friday 03 Sep 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Sunny in the north, cloudier elsewhere with brighter spells later.

Today:
Another cloudy start for most, but sunny in the north. Staying dry throughout, with sunny spells developing more widely through the afternoon, with the brightest conditions still in northern areas, giving higher temperatures. Maximum temperature 21 deg C (70 deg F).

Tonight:
Bright spells for most this evening, sunniest in the north. Cloud becoming more widespread overnight, with some clear spells in western areas. Remaining dry, and feeling cooler under clearer skies. Minimum temperature 10 deg C (50 deg F).

Saturday:
The recent pattern continuing, remaining fairly cloudy, with the best of any sunshine in the west. Most should see some sunny spells later. Staying dry throughout. Maximum temperature 20 deg C (68 deg F).

Outlook for Sunday to Tuesday:
A bright start on Sunday but likely becoming cloudier and perhaps wetter in the evening. Cloudy and possibly damp on Monday. Drier and brighter on Tuesday. Becoming warmer.
